

The bone & soft tissue cancer charity

What is sarcoma?

- Sarcomas are uncommon cancers that can develop anywhere in the body, including the muscle, bone, tendons, blood vessels and fatty tissues.
- 15 people are diagnosed with sarcoma every day in the UK.
- There are around 100 different sub-types of known sarcoma.
- A key symptom of sarcoma is a lump that is increasing in size, often quickly.

Sarcoma UK is a national charity that funds research, offers support and campaigns for better treatments.
